WorkPlace Scholarships: A High-Impact Opportunity

WorkPlace Scholarships are about one concept -- OPPORTUNITY. Providing Opportunity for job training through The WorkPlace enables people to improve their lives and provide for their families. WorkPlace Scholarships also build the workforce for employers.

WorkPlace Scholarships are a high-impact way for you to contribute, since your gift directly covers costs of occupational skills training and career support services. WorkPlace scholars get the skills they need to become more valued contributors to their employers and the economy of Southwestern Connecticut. Training costs vary based on type of training and the training provider organization. The average cost of a scholarship for an adult is \$2,700. Youth scholarships are \$5,000 and include occupational skills training and intensive support services. 10% of contributions are used for contracting, reporting, monitoring, public relations, and accounting.

Contributors will receive recognition in marketing materials promoting WorkPlace Scholarships. They will also be identified on www.workplace.org, and in other WorkPlace materials.

____ **Yes, I would like to provide job training opportunities for people in our community.**
I have enclosed a check for _____:

Contact _____ Title _____

Company _____ Address _____

Telephone Number _____ Fax Number/Email _____
